

Model HPM-10

Power Meter

Monitor the efficiency of your appliances and equipment, and reduce your power bill with the new power meter HPM-10.

Features

- Determine the running cost your appliances.
- Make informed decisions when purchasing appliances and equipment.
- Reduce your electricity bill.
- Measure Voltage, Current, Power, Volts, Amps, Power Factor, and Greenhouse Gas Emissions.
- Calculate electrical expenses by day, week, month, and even an entire year.

Specifications

Item	Range / 15A	Units	Accuracy/Error
AC Voltage	100-240	V rms	±1%
AC Current	10	A rms	±1%
Power	0-2500	W	±1%
Apparent Power	0-2500	VA	±1%
Power Factor	0.001-1		Watt / (Vrms* Arms)
Frequency	45-65	Hz	±1%
Cost	0-9999999	\$	
Energy	0-99999	kWh	
Gas	0-999999	kg	
Cost Setting	0-99.999	kWh, cents/kWh	
Gas Setting	0-9.999	kg/kWh	
Time Duration	1,8,12,24 2,5,7,14,28	Hours Days	
Run-Time Measurement	99:23:59:59	Days : Hours : Mins : Sec.	

General

Fuse rating: 10A/250V
Dimensions: 221(L) × 110(W) × 56.8(D)mm
Weight: Approx. 760g
Safety standards: EN 61010-1 EN 61326-1
